My two cents. Just a few comments/edits.

All, please find attached a first draft for the residential letter. I have been wrestling with the language and I have not been able to draft language that describes the data without comparing to the RSL which in turns means that the RSL will need to be explained. I also feel like the letter is missing some information, but I just don't know what it's missing. Please send comments. I am really struggling.

Please note: the RSL web page notes are for me only and will not be included in the letter.

thanks
